

## Desco ESD hand lotion 229630, 235 ml

**Product Number** EP0106002

### Product Description

The moisturizing formula improves the contact of the wrist band with the skin and soothes chapped and isolating dry skin. It is free of contaminants so that nothing is transferred to the work surface. The lotion is non-acidic to prevent corrosion of electronic components.

- contains aloe vera, moisturizers and vitamins
- without lanolin, silicone, mineral oil or insulators that can contaminate electronic components
- for dissipation optimization
- conductive
- to improve contact between the skin and the grounding wristband
- unlike conventional moisturizing lotions, does not leave an insulating layer on the skin
- quickly absorbed
- with aloe vera and peach fragrance
- contains vitamins A, D and E
- free from harmful chemicals
- Contents 235 ml
