

Concentric ring electrode ME40 with accessories

Product Number EP0204017

Product Description

Concentric ring electrode for Tera ohmmeters for measuring surface resistance (**R_{p-p}**) and volume resistance (**R_v**) in accordance with DIN IEC 61340-4-1 and IEC 61340-2-3.

Scope of delivery:

- 1 concentric ring electrode
- Weight 2.6 kg
- Ø 70 mm, 170 mm high,
- outer ring diameter 60 mm
- inner ring diameter 30 mm
- Contact surface with conductive carbon contact rubber (R500 Ohm)
- 1 banana-BNC adapter
- 1 support electrode
- 1 measuring lead 2m, yellow, 1 measuring lead 3m, red
- 1 rigid PVC plate 130 x 130 x 5 mm
- ESD case with foam inserts
- Calibration certificate
