

Pair of ME50 measuring electrodes with accessories in a case set

Product Number EP0204020

Product Description

Measuring electrode set for Tera ohmmeters for measuring surface/volume/leakage resistances (**R_p -p, R_v , R_g**) in accordance with DIN IEC 61340-4-1 and IEC 61340-2-3.

Scope of delivery:

- 2 ME10 measuring electrodes
- Weight 2.5 kg each
- Contact surface: Conductive synthetic rubber from 3M, Shore A 60
- 1 banana-BNC adapter,
- 1 support electrode
- 1 measuring cable 2m, yellow, 1 measuring cable 3m, red
- 1 rigid PVC plate 130 x 130 x 5 mm
- ESD case with foam inserts
- Calibration certificate
