

Measuring electrode pair ME20

Product Number EP0204021

Product Description

Measuring electrode set for Tera ohmmeters for measuring surface resistances (R_{pp} and R_{pe}) in accordance with DIN IEC 61340-4-1 and IEC 61340-2-3

For leakage resistance and point-to-point measurements.

Scope of delivery

- 2 x circular electrodes ME10
- color: Dark grey
- weight: 2.5 kg
- diameter: 63.5 mm
- contact surface: Conductive synthetic rubber from 3M, Shore A 60
- safety banana jacks (2)
- 1 x calibration certificate
