

ESD measuring devices Kit 823

Product Number EP0201090

Product Description

Measuring device set for ESD measurements. This kit combines the two most relevant ESD measuring devices in a practical aluminum case.

Set consisting of:

EP0201075 TeraResist 8000 high ohmmeter,

EP0204021 two ME10 measuring electrodes

EP0201011 EFM 823 electric field meter

The set includes **battery chargers** for both measuring devices as well as the **connecting cables** to the measuring electrodes and an **earthing cable** for the EFM.
