

Coiled cable, DK 10 magnetic connection, length 3.60 m

Product Number EP0103029

Product Description

The MagSnap® earthing cable is ideal for personal earthing using earthing-capable ESD clothing in conjunction with a magnetic connection on the clothing.

This type of personal earthing is now possible and standard-compliant following an update of the "IEC 61340-5-1:2016-05" standard (General ESD protection requirements) in March 2024.

- **Connection cable to wrist strap or groundable ESD clothing with magnetic connection on DK10.**
- Highly flexible spiral cable made of 7 copper-wrapped polyester strands.
- Safety resistor: 1 MOhm

The [product video](#) shows how easy it is to connect the cable to the ESD clothing.
