

COMPACT" two-arm lock

Product Number EP0301102

Product Description

Two-arm turnstile

- Barrier-free escape function
- Particularly compact design
- Easy to service thanks to hinged cover
- Noiseless operation
- Single or bidirectional operation
- Input direction can be reversed
- High passenger throughput
- Safe separation of persons
- Integrated LOGITURN control system
- Maintenance-free mechanics
- Operating voltage: 230V 50-60Hz
- Power consumption: max. 50VA
- Storage temperature: -40°C to +50°C
- Operating temperature: -20°C to +40°C
- Width/passage: 305mm/577 mm
- Length: 350 mm
- Height: 1000-1365 mm
- Weight: 45kg
- Material: Steel, powder-coated, stainless steel V2A, material 1.4301
- Interfaces: potential-free contacts
