

SIMCO ionizing cartridge Z-Stat 6110

Product Number EP0403009

Product Description

Ionizing cartridge Z-STAT 6110.

The 6110 is compact and robust. The cartridge can be used either for in-line ionization or as an ionizing blow-off gun. For in-line operation, the cartridge is simply connected to a compressed air source. When attached to a standard air gun, the air flow is ionized for effective particle removal.

- IsoStat® technology
- Shielded emitter points
- Compact size
- Balance: better than $\pm 25V$ in about 15cm
- Discharge time: $\pm 1,000V$ to $100V$ 4 seconds
- Power supply: 24V
- Dimensions: $\varnothing 57 \times 54mm$
- Incl. power supply
