

Ionizing gun VIPER ION GUN

Product Number EP0403011

Product Description

- Ionizing blow-off gun for direct use with compressed air (7-87 psi)
- Neutralizes electrostatic charges to eliminate attraction, optical defects and contamination problems by removing charged dust
- Fast discharge times with ± 15 volt offset voltage compensation
- Meets the limits of EN 61340-5-1
- High-frequency piezo AC with transformer inside the handpiece
- Consistent ionization performance with longer hose lengths
- Balanced, lightweight and ergonomic design
- The center of gravity is aligned with the operator's gripping hand to facilitate operation
- Long handle trigger
- Slotted nozzle tips
- Meets OSHA requirements for pressure relief
- 3 meter power cord (100~240VAC) to 24VDC power adapter
- Status LEDs
- Illuminates when trigger is pulled, indicating gun is discharging ionized air
- NIST calibrated with accompanying certificate
- Calibrated with recognized procedures and standards
- 100-240VAC power adapter with interchangeable plugs
