

ESD paper adhesive tape, conductive, 50m x 55 mm

Product Number EP0603049

Product Description

Electrostatic dissipative paper packaging self-adhesive tape.

This tape is ideal for bonding cardboard packaging to prevent electrostatic charges.

Properties:

- good adhesive strength
- Core diameter 76 mm
- good resistance to moisture and weathering
- heat-resistant - up to approx. + 60°C for short periods
- silicone-free
- electrostatically dissipative according to IEC 61340-2-3 (1×10^5 Ohm - 1×10^{11} Ohm)
