

ESD cover film as hood, dissipative, 50 m roll

Product Number EP0703014

Product Description

In electronics production, there is often the problem of covering larger objects or workstations in one piece in an ESD-compliant and dust-tight manner.

This is why we now **offer** a special **antistatic/dissipative cover film in the form of a cover hood**, which protects machines or electronics against dust and dirt, for example, without neglecting ESD safety.

- Cover film in the form of an antistatic/dissipative hood, 50 m x 4.80 m,
- semi-transparent, pink,
- folded 4 times to 1.20 m roll width,
- Film thickness 0.06 mm,
- $RS = 10^9$ to 10^{11} Ohm,
- PU 1 piece
