

ESD transport trolley, 100 kg load capacity

Product Number EP0705046

Product Description

With the ESD transport trolley from AUER Packaging, you can easily move ESD plastic containers from A to B. The basic dimensions of 60 x 40 cm also make it possible to transport two 40 x 30 cm containers. The electrically conductive material reliably protects sensitive electronic components from electrical charge.

- Electrically conductive material
- High-quality, smooth-running wheels
- Euro dimensions

Technical data

- ESD transport trolley with galvanized roller forks
- Max. load capacity 100 kg
- for pallets 600 x 400 mm
- 4 castor wheels Ø 10 cm (ESD-PP)
- External dimensions (L x W x H): 608 x 410 x 172 mm
- Weight: 4.49 kg
- Color: black, similar to RAL 9017
- Specific volume resistance $10^3 \cdot 10^{10}$ Ohm/cm
