

ESD system light WorkLED SE 4040, swivel-mounted

Product Number EP0804025

Product Description

Product description:

High-quality and powerful LED system light with satinized light cover.

Application:

Illumination of workstations in assembly and laboratory areas; illumination of workstations in electronics production.

Product features:

Very long service life; homogeneous, ergonomic and glare-free light; energy saving; robust aluminum housing.

Product advantages:

- Dimmable via multifunctional push-button
- Saving of the set brightness
- integrated control gear;
- rotatable luminaire - this allows the light requirement to be specifically aligned to a certain area of activity and adjusted to personal height or sitting position.

Technical data

ESD-compliant yes Length x width x height 976 x 51 x 54 mm Glare-free light yes Rated power 32 W Voltage 230 V (AC)
Temperature range °C 0 to 30 °C Rotatable, dimmable yes Supply cable 4 m with safety plug Color temperature 4000
°K Protection class 1 Protection class IP 30 Illuminance 1345 lux at a distance of 1 m Current 0,15 A Light efficiency 105
lm/W Luminous flux 3368 lm
