

ESD cleaning brush, conductive, 18x9mm

Product Number EP1201037

Product Description

- Dimensions: 18x60x9 mm
- Conductive bristles, dissipative handle
- Volume resistance of the conductive fibers: 1×10^3 to 1×10^5 Ohm
- Volume resistance of the dissipative handle: 1×10^4 to 1×10^{11} Ohm
- Brushes minimize static charge and dissipate electrostatic charges when held by grounded personnel
- Black handles made of dissipative polypropylene are able to dissipate charges to earth
- Hard bristles are mainly suitable for electronics, especially printed circuit boards
