

ESD earthing bracelet, anti-allergic

Product Number EP0105004

Variants Push button connection: DK 4 mm

Product Description

This variable wrist strap has an interchangeable closure back. A metal backing provides better contact with dry skin; if there are problems with the skin and metal, a plastic cover can be used.

The adjustable, elastic strap is suitable for a circumference of 130 mm to 180 mm and offers full 360° wrist contact.

- Inner surface: 80 threads of acrylonitrile copper sulphide
- Outer surface: polyester fiber
- Strap resistance: 80-90 Ohm / inch
- Latch: polycarbonate, underside optionally metal or polycarbonate.
