

ESD floor covering Noraplan STONE ED, 15 m roll

Product Number EP0501002

Variants Colour: Grey-blue

Product Description

Noraplan STONE ED ESD flooring is ideal for heavy-duty use and offers high impact sound insulation of 6–7 dB. An earth leakage resistance in accordance with EN 1081 ($10^6 - 9 \times 10^7$ Ohm) offers high ESD safety. The good slip resistance of class R10 is also suitable for barrier-free applications. This ESD floor covering has high fire protection properties and PVC, phthalates and chlorine have been completely eliminated. No additional coating is required for this ESD floor covering.

- ESD flooring Noraplan STONE ED in rolls,
- Color: **grey** (1146), thickness: 2 mm, PVC free,
- Dimensions: **1.22 m x 15.00 m**,
- Earth leakage resistance according to **EN 1081**: $10^6 - 9 \times 10^7$ Ohm,
- Installation: glue down with conductive ESD adhesive

Key features

- Good for heavy-duty use
- High impact sound insulation (6–7 dB)
- R10 slip resistance
- Free from PVC, plasticizers (phthalates) and halogens (chlorine)
- increased safety due to high fire protection properties
- no coatings required
