

PROTEX® Premium ESD-Twin-Lay jacket, dark gray-black

Product Number EP1003028

Variants **Size:** XS

Product Description

The ESD jacket for colder ESD areas. The Twin-Lay jacket from ESD-Protect is a real functional jacket with two layers on top of each other.

The fleece sewn on the inside keeps you warm, while the outer layer is robust and water-repellent. Ideal for ESD areas with external contact and people who move between several ESD areas.

Further features of the Twin-Lay jacket:

- Inner layer: thermal fleece
- Outer layer: cotton with 6% carbonized conductive fibre
- With zipper, ESD symbol and two side pockets
- Two side pockets with zipper
- Additional inside pocket
- Color: dark grey-black
- Embroidery possible
