Product Description

Abeba ESD shoes Business Men 33240

The ESD shoes Business Men 33240 from Abeba dissipate electrical charge in a safe and controlled manner. These shoes are tested in accordance with DIN EN 61340 and meet the highest standards in terms of ESD safety. The shoes are made from high-quality smooth leather and still look very business-like. They have a steel toe cap and are equipped with a slip-resistant rubber sole. The shoes are also breathable and have a moisture-absorbing microfiber lining. So you can always be sure that your feet stay dry and comfortable.

Abeba ESD shoes are class S2, SRA business low shoes with a steel toe cap, in smooth black leather. The breathable and moisture-absorbing microfiber lining ensures a high level of comfort, while the slip-resistant rubber sole ensures safety on any surface. Sanitized treated ESD shoes are also ideal for people with sensitive skin, as they eliminate bacteria and odours. The instep area is equipped with lacing for a perfect fit. Abeba ESD shoes meet all requirements for safety, quality and comfort, making them the perfect choice for everyday use. These ESD shoes are electrically conductive shoes that ensure a safe and controlled discharge of electrical charges. These ESD shoes comply with DIN EN 61340 and therefore meet the internationally recognized safety standard for electrically conductive shoes.
