Variants Shoe size: 35

ABEBA®

Product Description

ESD clogs x-light 7131035

The x-light 7131035 ESD clogs from abeba are the perfect choice for anyone looking for high-quality and durable ESD shoes. They are made from smooth leather and have a breathable inner lining with silver ions. The heel strap is fixed and adjustable. The instep area is elasticated and has a Velcro fastener. The slip-resistant PU outsole ensures optimum grip and protection against slipping. The steel toe cap protects the toes from impact. These shoes are ESD-compliant in accordance with DIN EN 61340.

Color: Black

Protection types:

SB – protective toe cap 200J, resistance to oils, petrol and other organic solvents, slip resistance on ceramic, steel or both surfaces

Features:

- SRC – slip resistance on ceramic tile floors with SLS (sodium lauryl sulphate solution) and on steel floors with glycerol
- ESD – ESD capable, protection against electrostatic discharge
- Antistatic – Antistatic properties
