

BarMaster control unit

Product Number EP0402043

Product Description

To achieve the best performance of the ionizing units, the BarMaster is used to adjust the output parameters and alarm settings.

The BarMaster is connected to the 24 V power pack on the ionizing bar and allows the output and clean pin alarm settings to be adjusted. When programming is complete, the BarMaster is disconnected. After switching on again, the ionizers work with the programmed settings.

Technical Data

Breite	81 mm
Höhe	143 mm
Tiefe	25 mm
Verkaufseinheit	1 Stück
Material	Gehäuse: ABS-Kunststoff
Kabellänge	2000 mm
Elektrische Verbindung	4-poliger M8-Stecker
Eingangsspannung	24 V
Zertifiziert	CE-Kennzeichnung
