

SIMCO FMX 004 electric field meter

Product Number EP0201025

Product Description

The FMX-004 is a handy, compact, pocket-sized field strength meter.

The device can measure and store the valence and polarity of the field strength and enables you to take measurements even in hard-to-reach places.

Two built-in LEDs indicate the correct measuring distance. The electrically conductive plastic housing with earthing connection ensures maximum measuring accuracy.

The unique two-color display shows the measured value in two ways, both digitally and graphically. The device has a battery discharge indicator.

- Enables accurate measurements
- Electrically conductive plastic housing with earth connection
- Enables you to take measurements even in hard-to-reach places
- Battery status indicator
- Pocket size

Measuring range	0 - 30 kV pos./neg.
Accuracy	± 10% 0-30 kV
Measuring distance	25 mm (0 - 30 kV)
Zero setting	Automatic
Battery	9V alkaline battery
Housing	conductive ABS
Weight	170 g
Ambient temperature	10 - 40 °C
