

SMP EM Aware Monitor

Product Number EP0205028

Product Description

SCS miniature radio receiver, designed for the detection and measurement of ESD events. Permanent monitoring of:

1. ESD events (electrostatic charges, discharges)
2. Voltage changes in electrostatic fields
3. Monitoring of ionizers with a balance (offset voltage) of $\pm 40V$ or better
4. Detects a problematic environment and qualifies tools for handling ESD-sensitive devices

Alerts when a user-defined limit value is exceeded

Interfaces: Relay output, Ethernet LAN, external antenna

Scope of delivery:

- EM Aware Monitor
- External antenna
- Replacement antenna for ionizers
- Earthing cable
- Power supply unit (7.5 VDC)
- Calibration instructions
