

## Treston ESD workbench WB (electric)

**Product Number** EP0801007

**Variants** Dimensions: 800 x 1073 mm

### Product Description

**Workbench WB 811, adjustable by electric motor, 800 x 1073 mm,**

The working height can be adjusted almost silently between 700 and 1100 mm by an electric motor. The speed of the motor is 19 mm/s. The starting point for the height adjustment is a stable aluminum sliding frame. The load capacity is 200 kg. Base frame powder-coated steel construction in RAL 7035, with leveling feet. Earthing is via a safety resistor (1 megohm).

- Depth x width: 800 x 1073 mm,
- Table top 26 mm,
- Chipboard core, coated with ESD laminate,
- Earthing is via a safety resistor (1 megohm),
- Load capacity of the electric motor table: 200 kg/surface load,
- With cable tray,
- Delivery: **unassembled**
