

Treston SAP table trolley ESD

Product Number EP0801103

Variants Dimensions: 700 x 500 mm

Product Description

The SAP table trolley offers an easy-to-maneuver, additional work and storage option. Castors with brakes allow the table trolley to be firmly fixed in place. Available in various sizes to meet different requirements. Lower shelves and an additional handle to make maneuvering the trolley easier are available as accessories. The trolley height can be adjusted using Allen screws so that the trolley can be adapted as required. The SAP table trolley is a good addition to the TP work tables from Treston.

- Standard table trolley in ESD design that is easy to maneuver
- Powder-coated steel frame (light grey, RAL 7035), load capacity 150 kg
- Trolley available in various sizes
- Accessories, such as lower shelves for additional space under the trolley or a handle for easier, ergonomic handling of the trolley, available separately
- Height adjustment from 650 to 900 mm using Allen screws
- Four swivel castors (100 mm), two with brakes

Please order base plate separately
