

## Treston Concept ESD table trolley

**Product Number** EP0801244

### Product Description

The Concept trolley offers an **additional mobile work and storage option** alongside the Concept and WB work tables and features a sturdy steel frame. Its height adjustment makes it versatile and the integrated lower shelf provides additional storage space.

The Concept trolley can be rolled effortlessly from one place to another. The lockable castors ensure that the trolley remains securely in place when required. A good addition to the work tables in the Concept and WB series.
