

ESD transport trolley, 100 kg load capacity

Product Number EP0705278

Product Description

With the ESD transport trolley from AUER Packaging, you can easily move ESD plastic containers from A to B. The basic dimensions of 60x40 cm also allow two 40x30 cm containers to be transported. The electrically conductive material reliably protects sensitive electronic components from electrical charge.

- Electrically conductive material
- High-quality, smooth-running wheels
- Euro size

Technical data

- ESD transport trolley with galvanized roller forks,
- Max. load capacity 100 kg,
- 2 swivel wheels, 2 swivel wheels with brakes, Ø 10 cm
- for pallets 600 x 400 mm
- 4 swivel castors Ø 10 cm (ESD-PP),
- External dimensions (L x W x H): 608 x 410 x 172 mm,
- Weight: 4.47 kg,
- Color: black, similar to RAL 9017
- Specific contact resistance 10^3 10^{10} Ohm/cm
