

ESD-ProoFloor PF 70 floor puzzle tile, dark gray

Product Number EP0502060

Product Description

These highly resistant and easy-care PVC tiles are suitable for rooms with high mechanical loads, particularly thanks to their homogeneous material and abrasion resistance. You can rely on an ideal combination of stable and reliable conductivity and the proven service life of ESD flooring. The PF 70 floor puzzle tile complies with the EN 61340 and EN 14041 standards and is suitable for use with lift trucks thanks to its compressive strength of 520 kg/cm².

- Dimensions: 510.5 x 510.5 x 7 mm
- Leakage resistance 10⁴ Ohm to 10⁸ Ohm
- Homogeneous resistance over the entire surface
- Dimensionally stable
- Color: dark grey
- Suitable for use with pallet trucks with a compressive strength of 520 kg/cm²
- complies with standards EN 61340, EN 14041
- easy installation thanks to interlocking joints
- Click-and-use installation
- chemical-resistant, reduces dust and noise, slip-resistant (class R10)
- Insulation of the floor against cold and moisture
- fire-retardant – class Bfl s1
- re-layable
- Price per tile
