

HAKKO soldering tips T15 for FX 951 (FM 2028)

Product Number CE0103001-VH

Product Description

- Power consumption: 110W (50/60Hz)
- Temperature range: 350–500°C
- Earth resistance: 2 Ohm
- Stray voltage: 2mV
- Vacuum generator: diaphragm pump
- Negative pressure: 81kPa (610 mmHg)
- Suction capacity: 11L/min
- Heating element: Ceramic
- Standard nozzle: 1.0mm diameter
- Dimensions (WxH): 215 x 226 mm
- Weight: 0.52kg (with nozzle, without cable)

Scope of delivery:

- Soldering nozzle Ø1.0 mm (N61-08)
- Cleaning needle for nozzle Ø1.0 mm (B 1087)
- Cleaning needle for heating element (B 1085)
- Pre-filter (B 5104)
- Nozzle release tool (B 5106)
- Ceramic paper filter L (A 5044)
- Storage stand, single (C 5003)
- In transport case
