

PaperStat®ESD-
 Packaging bag

Dissipative

Product	ESD paper flat bag with side seam and self-adhesive closure flap - Dissipative Plus
Area of application	Standard-compliant packaging for electronic components in accordance with the standard IEC 61340-5-3
Material	ESD special paper, 100% recycled paper, 70 g/m ²
ESD Classification	< 10 ⁵ Ω
Volume Resistance (value unit standard)	IEC 61340-5-3 (measured in accordance with IEC 61340-2-3)
Climate dependence	Independent of humidity
Durability	Permanent
Paper thickness	0,11 – 0,12 mm
Burst strength (value unit standard)	210 kPa ISO 2758 / TAPPI T403
Glued seam strength (value unit standard)	4,3 N DIN EN ISO 1924-2/100/20
Dimensions	First dimension is the opening side and the useful dimension (inner dimension); tolerance deviation +/- 5%
Design/variant	Paper flat bag with side seam and self-adhesive closure flap
Print	ESD symbol, recycling symbol
Colour	brown
Technical note	Not suitable as a single, close-fitting packaging of electrostatically endangered components (ESDS) outside the EPA
